Footnotes:

(2) Annual wages have been calculated by multiplying the hourly wages by 2,080 hours; for occupations where hourly wages are not published, annual wages were taken directly from the reported survey data.

\*The "starting salary" figure reflects the 10th percentile wage reported by the U.S. Bureau of Labor Statistics (BLS). This value is used as an estimate of entry-level wages for individuals in this occupation and may not represent actual starting salaries earned by graduates.

SOC code: Standard Occupational Classification code -- see <http://www.bls.gov/soc/home.htm>
